About Us

- **Farhan Agro Processors** has become a manufacturer, exporter, importer, and marketing company and the largest dry foods processor and exporter in Bangladesh. Farhan Agro Processor is a pioneer in Bangladesh that procures raw materials directly from farmers and processes them into hygienically packed food products through our factory machinery. Farhan Agro Processors brand Naz has established itself in every segment of food and can extend the range of products from confectionery, snacks, spices, bakery and pickle products. We have the capacity to supply a good number of products to support our clients. We are confident that we can ensure the highest quality of products and competitive prices. More specifically, we are involved in the manufacturing of dry food products to various countries of the world and exporting the products as per the requirements of the clients.
